DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hickman et al (US 3,988,535) in view of Montone et al (US 3,899,634), and further in view of Asai et al (US 5,926,950).

Hickman discloses in Figs. 1-7B substantially all the claimed limitations, except for displaying device, a position matching device and a storage portion.

Montone discloses displaying device, a position matching device (Figs. 2-3 and 5-6).

Asai discloses a storage portion (334 and 336).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Hickman by providing displaying device, a position matching device and a storage portion, as taught by Montone and Asai, for the purpose of accurately mounting components and increasing production of electronic devices.

Conclusion

3. **Please provide reference numerals (either in parentheses next to the claimed limitation or in a table format with one column listing the claimed limitation and another column listing corresponding reference numerals in the remark section of the response to the Office Action) to all the claimed limitations as well as support in the disclosure for**
